

ATMOSPHERE
SKY™

Clean air is the most important element of the environment we live in, and significantly affects our experience of life. This is because the quality of the air we breathe in makes a big impact on our physical well-being. Airborne contaminants and pollutants like mould and allergens which are carried in the air, if left unchecked, can cause various health problems that prevent us from truly enjoying every moment of our lives.

QUALITY OF AIR IS
QUALITY OF LIFE

The air in your home can
be up to 5 times more
polluted than outside*.

*The United States Environmental Protection Agency (EPA) has found that indoor air can be up to five times more polluted than outside air, May 2016.

Potential pollutants in your home's air:

Bacteria

Viruses

Fungi

Mould

Dander

Fibres and
pet hair

Dust mite and
cockroach allergens

Smoking
odours

Cooking
odours

Pet
odours

ATMOSPHERE SKY™

Atmosphere™ is the world's #1 selling air treatment product for homes** and is designed for a better experience. The launch of the Atmosphere SKY™ Air Treatment System sets a new standard for air quality with Inteliflow™, our unique internal air circulation system.

Reduces over 300 contaminants from air passing through the unit.

Clean Air Delivery Rate (CADR) of more than 300 cfm, to clean rooms up to 465 sqft in size.

99.99% filtration of particles as small as 0.0024 microns.

3rd party certification by:

The British Allergy Foundation **Seal of Approval** for its ability to reduce exposure to specific allergens.

The U.S. Environmental Protection Agency (EPA) **ENERGY STAR®** for energy efficiency. Its low-speed power consumption is lower than 5 watts while maintaining effective performance. High-speed power consumption is lower than 50 watts while maintaining effective performance.

CADR Certification from the Association of Home Appliance Manufacturers (**AHAM**) for an air flow volume of 300 cubic feet per minute.

European Centre for Allergy Research Foundation (ECARF) certification which indicates that the Atmosphere SKY™ Air Treatment System has been scientifically tested by a third-party laboratory to reduce or remove allergens and is therefore suitable for use by people with allergies.

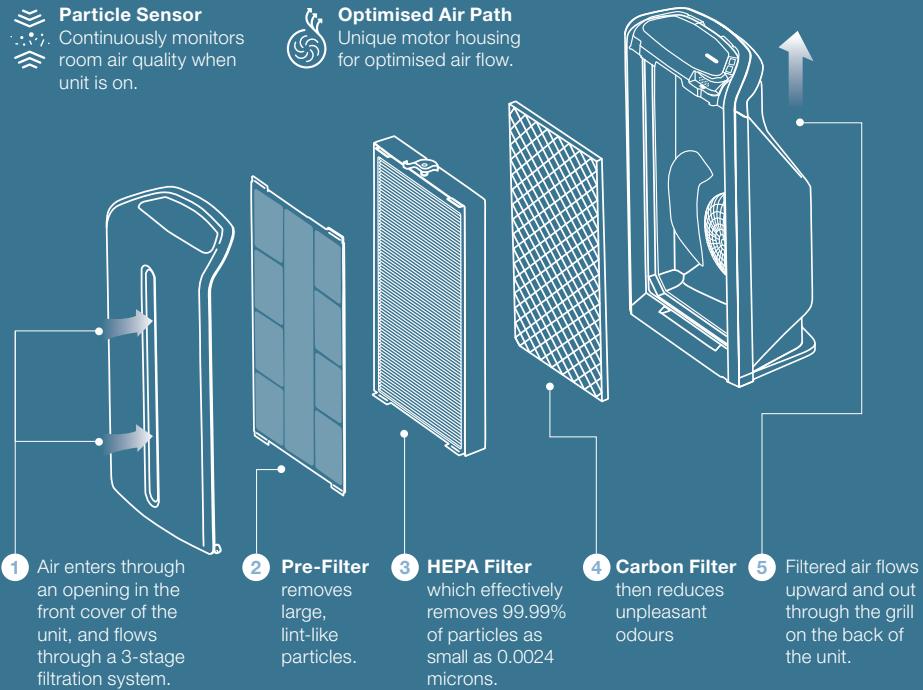

** Based on a verify market study of 2015 global sales revenue. Product is defined as a single model number within a brand or product line.

INTELIFLOW™ – sets a new standard for indoor air quality

3-Stage Air Filtration Process:

 **Particle Sensor**
Continuously monitors room air quality when unit is on.

 **Optimised Air Path**
Unique motor housing for optimised air flow.

1 Air enters through an opening in the front cover of the unit, and flows through a 3-stage filtration system.

2 Pre-Filter removes large, lint-like particles.

3 HEPA Filter which effectively removes 99.99% of particles as small as 0.0024 microns.

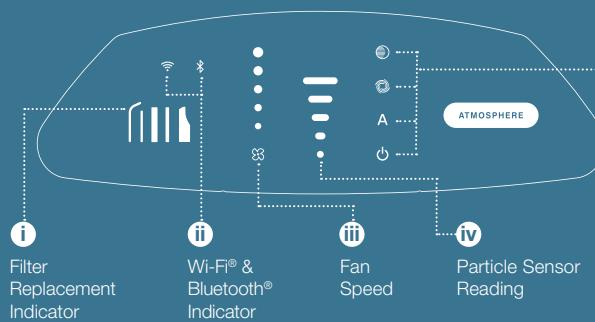

4 Carbon Filter then reduces unpleasant odours

5 Filtered air flows upward and out through the grill on the back of the unit.

The unit uses a unique internal air circulation system featuring a two-part Inteliflow™ Assembly. This system allows air to flow through the unit in a manner that minimises noise while maximising air flow.

Capacitive Touch LED Display

Functionality is at your fingertips with a range of useful features:

v Settings

- Night: Fan speed less than 3, display dimmed
- Turbo: Maximum speed for 30 minutes
- Auto: Fan speed varies based on air quality
- Power On/Off Indicator

LIST OF CONTAMINANTS REMOVED

- Parvovirus B19
- Canine Parvovirus 2
- Feline Distemper (Feline Parvovirus, FPV)
- Rhinovirus
- Avian Encephalomyelitis Virus
- Echovirus
- Tobacco smoke
- Coxsackievirus
- Norwalk virus
- Hepatitis A
- Canine Calicivirus (CaCV)
- Canine Norovirus
- Feline Calicivirus (FeCV)
- Feline Panleukopenia (Picornavirus) (FPV)
- Marburg virus
- Polymyavirus
- Omsk hemorrhagic fever
- Dengue fever virus
- Japanese encephalitis
- Kyasanur Forest virus
- Arterivirus
- Louping III (LIV)
- Papilloma virus
- Psittacine Beak and Feather Disease (PBFD)
- Chikungunya virus

- Cryptomeria (evergreen, Japanese cedar)
- Japanese cedar
- Amaranthaceae (pigweed, amaranth, cottonweed)
- Tilia (basswood, linden)
- Populus (poplar, cottonwood, aspen)
- Polygonaceae (buckwheat, rumex, sorrel)
- Acer (maple, box elder)
- Chrysanthemum (ox-eye)
- Taraxacum (dandelion)
- Carpinus (hornbeam)
- Cyperaceae (sedge family)
- Fagus (beech)
- Poaceae (grass family, Gramineae)
- Grass
- Orchard grass
- Drechslera
- Pinus radiata D (New Zealand pine)
- Acacia (wattle, mimosa)
- Calliandra (calliandra)
- Pinaceae (pine family)

ATMOSPHERE CONNECT™ APP

Connect to mobile devices via Bluetooth® and Wi-Fi® wireless technologies using the ATMOSPHERE CONNECT™ APP, and operate the Atmosphere SKY from any location as long as the unit is connected to your Wi-Fi® network.

ATMOSPHERE CONNECT™ transforms your phone:

Remote Control

Allows you to:

- Turn the unit on/off
- Change fan speed and mode
- Measure indoor air quality

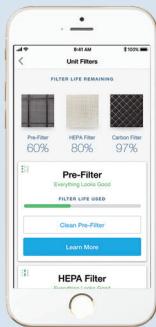

Air Quality History

Monitor and review the indoor air quality history over a 6-hour time frame.

Device Status

Allows you to monitor and control multiple units within your home.

Filter Life Tracking

Allows you to monitor filter usage and lifespan.

Do replace the filter when its lifespan has ended when prompted in the ATMOSPHERE CONNECT™ APP or when the filter indicator on the LED Display panel turns red.

Added benefit: In App Product Warranty Registration

Download the free app on your smart phone or mobile device and never worry about the air quality in your home again. You can easily use the ATMOSPHERE CONNECT™ APP to monitor and operate your Atmosphere SKY, both when you're at home or away.

* Available in Google Play & Apple App Store.
Compatible with Android 5.0, iOS 9 & above.

ATMOSPHERE :: SKY™

ATMOSPHERE VS ATMOSPHERE SKY COMPARISON TABLE

Model	Atmosphere	Atmosphere SKY
CADR	250 cfm	300 cfm
Square Feet Coverage	390 sqft / 36 sqm	465 sqft / 43.2 sqm
Particle Size	0.009 microns	0.0024 microns
Number of Contaminants Reduced	97	Over 300
Night Mode	No	Yes
Weight	10.7 kg	12.6 kg
Size (HxWxD)	29" x 15" x 11"	29.4" x 16.2" x 12.1"
Built-in Connectivity	No	Yes
Remote Control	Yes	No (ATMOSPHERE CONNECT™ APP functions as remote control)
Mobility	No	Equipped with wheels
Display Panel	Button press	Capacitive Touch LED Display
Noise Level	25 dBA – 54 dBA	26 dBA – 52 dBA
